When It Comes To Success In Real Estate, We Leave No Stone Unturned.

You've heard the idiom – Leave no stone unturned. When we try to do everything that you can in order to achieve something or to find someone . And that holds so true in today's challenging real estate marketplace.

And it is our own Janet Stone of REMAX First Realtors that truly leaves no stone unturned when it comes to serving her client's needs when looking to buy or sell a home.

You see, Janet has been training for what she does today her whole life. From a little girl, she has learned the ethic of hard work and its rewards in order to get what you want in life. She saw it in how her Dad succeeded selling cars in Newton, KS.

After working several different careers, Janet decided she was a perfect fit to determine her own success by selling real estate. She went with the largest firm in 1988 (REMAX First), and has stayed with that company through today. She liked their success with their average

transaction and years of experience were higher than the industry averages.

Janet is licensed in both KS and MO, and works with both buyers and sellers. She will not take short sells or foreclosures anymore. And 95% of her business is done from referrals (past clients, friends, and family).

Janet can also locate a great agent to help you if you are leaving the KC area using the vast network that REMAX provides.

Her favorite clients are first-time buyers. They have done their research online and know what they are looking for. These will stay loyal to you for a long time. And she does serve corporate clients that are relocating to or from the KC area too.

With her years of experience, she has become more selective when it comes to her clients, especially those that are not too pleasant to deal with.

Guests:

That is something that you learn from experience, and you become independent in whom you service.

She talked about the current market stating that is was on the increase. There are 11,500 homes on the market. In Jo. Co, an average 4 bedroom home averages about \$299,200. And new construction of homes is up 46% from one year ago.

And Janet recommends using an agent that works full time because they have a better thumb on the pulse of the marketplace and what is happening.

So if you are looking to expand your living space, or have a growing family, or maybe have an aging parent that is moving to independent living, and is selling their home, you need to contact Janet and let her assist in whatever your needs are.

We need to Thanks Janet for everything that she does for the Club, from Social events to serving on the Board, her efforts might slide under the radar, but she is truly appreciated for all she does. Thank You Janet !!!
