

Do You Still Have Your Original Set of Choppers?

At least 3 times a day (for some of us, maybe more) we love to eat. Don't have to, but LOVE to! What do you need to get that done? A little saliva and a good set of choppers. No, not the motorcycles. A well-kept set of pearly whites. Yeh... your teeth!

In order to keep those pearly whites that color, your best friend here is your family dentist. If you don't have one, no one better than **Bert Oettmeier, DDS** to be that guy.

Bert has placed himself around success his entire life. He moved to the region as his father's business grew, and his days were filled with athletics. That in turn inspired him to play high school sports, leading him to select football, which he was very good at, to pursue in college. He interviewed with several schools, but landed at K State in Manhattan. His scholarship kept him there four years. As he was preparing to graduate, his counselor at the time asked Bert what he wanted to do the rest of his life. Bert thought football, but the counselor thought differently.

He told Bert about possibly going to dental or veterinary school, a popular choice at that time. And it just so happened that the DAT's (Dental

Admissions Test) was just around the corner. Bert took it, did very well, and was looked at by UMKC Dental School. He graduated and began his distinguished career in dentistry.

After nearly 15 years, some of his fellow doctors asked him to begin giving back to the organization that had been so good to him. He began working on the county and state level on different Boards and committees, and volunteering to serve when they did days of free dental services for needy families and individuals. Once he started, he has never looked back.

His laundry list is long, including Past Pres. of the KS Dental Board, various regional and state committees, and in the past 11 years, he is a part of the ADA (American Dental Association) serving on its board. And he has been recognized to become the UMKC Dental Alumni of the Year in 2015.

This Week’s Triva Question:-

What did Disney’s “The Seven Dwarfs” do for a living? Can you name them?

QUOTE OF THE WEEK

Do you know that awesome feeling when you get into bed, fall right asleep, stay asleep all night and wake up feeling refreshed and ready to take on the day?

Yeah, me neither!

LAST WEEK’S TRIVA QUESTION ?

The city that is home to the sculpture of *David* is Florence, Italy

(Cont'd from Page 1) *Do You Still Have Your
Original Set of Choppers?*

Bert has maintained his mainstream approach to dentistry. He does both general and restorative dental work. His key topic of discussion has always been on prevention. As most dentists he has a team of specialists ready to assist him with services he does not do. And he has asked a young, new dentist (Tyler Webb, DDS) whom he knew as a family friend that will someday in the future might be taking over the practice. This will allow him to take more time off to do what Bert enjoys doing best.

His best advice to all in attendance and others is to brush your teeth at least twice a day and try to floss at least twice a day too. Bert told us that candies and

sweet drinks are the worst. If you are eating candy or drinking a Coke, do it FAST! Leaving it in will make for lots more cavities. And Diet Coke is even worse, with a pH of between 2.7 and 2.9. VERY acidic – imagine what this does to your system as well as your teeth. Just having your teeth routinely examined and cleaned, and a healthy diet, a clean genetic background, and fluoride in the water all help to maintaining a happy and healthy mouth!

Bert – thanks so much for your very long term membership in the Club and for your dedication to great oral healthcare!
