

As an Architect, You Design for the Present with an Awareness of the Past for the Future Which is Essentially Unknown.

Have you discovered what drives you in life yet? What are your passions or hobbies? Are you doing what you love to do and working to achieve your dreams, or are you LIVING your dreams every day? One of us is doing this - Darryl Hawkins of Innovative Design and Renovation has been doing that nearly all his life.

His passion for sailing / boating (he raced them in college), being on or near water started growing up in Tulsa, OK near a small river, and the love of fine automobiles has permeated his life. His Dad made what we called a mini-bike back in the 60's. This was his start of his escape from adult supervision. He loved taking them apart and the challenge of putting them back together. His father was there to mentor him, teaching Darryl tricks of the trade, yet letting him learn by trial and error.

He certainly knew he had a propensity for art and a love of it as well. He even learned to play piano easily, which gave him appreciation for the musical side of life. When he was in high school, knowing he loved to draw, a drafting teacher suggested he take his class. He was really good at it, and surprisingly, loved it! He continued his college education getting his degree in architecture.

Darryl has worked for different sized organizations in his many years as an architect, and has a portfolio of work that would amaze

you. He has dealt with many larger corporations throughout his career. His influence comes from being inspired by the beauty that surrounds his projects and the mentors that have taught him the vision that one must have to create unique designs. He was hired by Walmart to design their store layouts, and loved all of his 10 years he spent there. His projects took him to both the East and West coasts.

Darryl has been in KC since 1986, and has loved being around water much longer than that. He works on many different projects when people are both upsizing or downsizing their homes, adding an addition, or maybe just gaining more living space by doing a new deck or sunroom. He is always amused by those people that say "Oh, I'll never need an architect" and take on a remodel job themselves as they start to demolish walls that are load bearing ones.

Darryl took us through his early beginnings grade by grade. What we found out knowing Darryl is his love and connection to the inner city of Kansas City itself - the heartbeat from which the rest of our city exists. And he expresses it by having most of his clients that come from downtown or the midtown areas. Mostly historic work was what he loves most. A connection to the past while looking towards the future.

Since his last presentation, Darryl and his wife Tracy have relocated to Occaquan, VA outside Washington, D.C. He followed his wife's endeavors there and as a bonus, now lives where his heart needs to be - just SW of D.C., and on a natural tributary leading into the Chesapeake Bay and the Atlantic Ocean. Wow!

Trivia Question:-

What industry was Benjamin Braddock advised to enter at his graduation party?

("Mrs. Robinson, you're trying to seduce me.")

The woods are lovely, dark and deep.
But I have promises to keep,
And miles to go before I sleep,
And miles to go before I sleep.

CONT'D FROM PAGE ONE –

He still conducts about 90% of his work here in KC, and makes frequent return visits to see his clients, as well as his children who still reside here (free room and board).

QUOTES OF THE WEEK

The reason we celebrate Flag Day on June 14th is simple- it's the day that marks the adoption of the flag of the United States which happened on June 14, 1777, thanks to a resolution of the Second Continental Congress. Flag Day is also a special day for the United States Army because it's the day they celebrate their birthday. Many Americans celebrate Flag Day by displaying the Red, White and Blue in front of homes and businesses.

The poet who wrote the famous poem with the line "I have promises to keep, and miles to go before I sleep" was Robert Frost.

So Thanks Darryl for again taking us on your life's journey and inspiring each of us to focus on what we love and what beauty there is around us each and every d
